

Program Vision Statement

The vision of the Southern Delaware School of the Arts School Counseling Program is for all students to participate in a rigorous school counseling curriculum that will encourage them to leave our school equipped with the knowledge and skills necessary to achieve academic, personal, social, and career success. With strong relationships between the school, family, and the community, students will become productive and active citizens within their communities, as well as, life-long learners.

SDSA Counseling Mission Statement

The Mission of Southern Delaware School of Art's School Counseling Program is to enable all students to experience educational success by providing a comprehensive and developmental counseling program that is aligned with the ASCA national standards. The school counseling program will focus on the needs, interests, and issues related to the stages of student growth through academic, personal/social, and career development that will prepare students to realize their potential and meet the challenges of their life choices. The school counselor will develop strong partnerships with educators, administrators, parents, guardians, and the community to ensure all students become successful life-long learners, problem solvers, and contributing and productive members of our society.

Basic information about myself and our school counseling services offered here at SDSA

My name is Frank Shockley, and this is my first year as part of the SDSA family. Prior to this, I was a Social Studies teacher at Indian River High School since the fall of 2011. I have earned two master's degrees from Wilmington University, the first in Secondary Teaching and the most recent in School Counseling. Before I was a teacher, I worked as a substitute teacher in the Indian River School District and worked as a retail store manager during the summers in Bethany Beach, DE.

As SDSA's School Counselor, I am here to help every student have a successful school year. I work with students, parents/guardians, and the community in different ways through a program with many services. Each service is aimed at helping our students learn and develop to their highest potential.

Some of the services in our school counseling program are:

- Group counseling to help students become effective learners.
- Individual sessions that include solution-based counseling to help students adjust to school or help in matters at home.
- A classroom curriculum to address issues such as bully prevention, self-esteem, conflict resolution, organization, academics, and learning to work together
- In-house or outside referral services

If there is a reason to see a student more than a few times for specific matters I will contact a parent or guardian to obtain permission.

My school hours are 7:40-3:35, however I am out of the office at different times throughout the day. If I do not pick up please feel free to leave a voicemail or email.

All sessions held with students are confidential. I consider my office a "safe place" for everyone who enters.
